

Summer and Fall Semester Enrollment Now Underway

Computer competency requirement

Beginning with the Fall 2013 semester, NPC is implementing a program to improve student learning in Internet-based classes. Prior to enrollment in Internet sections (**POS 221 & 222 are exempt**) students must either demonstrate or develop basic computer skills necessary for online learning.

Students who feel proficient and confident about their abilities can demonstrate this by completing an **Opt-Out** test. Those who have trouble successfully completing the test, or want to brush up their skills, must enroll in **Skills for Online Learning – ICT 095**, a half-credit, **tuition-free** course consisting of four hours of face-to-face contact and four hours of online work. If a student is not able to take ICT 095, a self-paced learning website will be available to study the required skills and then retake the **Opt-Out** test.

The **Opt-Out** test is available online now. Multiple sections of ICT 095 will be scheduled in July and August. More information on this requirement can be found at: eresource.npc.edu/distance/ICT/Requirement/
